Tell Clean Up Campaign Plans

Clean Up Canyon next week.

That's the slogan of the annual Clean-Up, Paint-Up, Fix-Up campaign that begins Sunday with Church Cooperation Day and ends the following Saturday with Inspection Day.

Activities will reach a high pitch Monday afternoon with a parade downtown and the hanging of Mr. Litterbug. A full schedule of emphasis has been set for the week.

In the parade will be the Canyon High School Band, Girl Scouts, Boy Scouts, Brownies, Cubs, the fire department, street sweepers and trash pick-up trucks. The parade begins at 4 p. m.

The full schedule is Sunday, Church Cooperation Day; Monday, Parade Day; Tuesday, Safety and Fire Prevention Day; Wednesday, Clean-Up, Paint-Up, Fix-Up Day; Thursday, Landscaping and Planting Day; Friday, Pick Up Day; Saturday, Inspection Day.

On Tuesday, Fire Marshal Jack Jennings and members of the fire department will inspect for fire hazards. Emphasis on Wednesday will be on cleaning up the town, especially alleys and vacant lots.

Pickup of trash will begin Friday, with volunteer workers man-

ning city and county trucks. The committee has asked that any property owner pruning trees cut the limbs into small pieces before stacking them in the alley. All trash put in the alley will be picked up.

The pickup day will continue

Saturday.

A contest for the most improvement during the week will be conducted. Deadline for entries in the contest was May 1. Cash prizes will be given to the winners, with \$50 going for first, \$25 for second and \$15 for third.

The campaign is sponsored by the Canyon Chamber of Commerce with the help of the Junior Chamber of Commerce. Mike Morris is chairman of the committee.

Long Service Pins Given Teachers

Service pins for long service in the Canyon school system were presented to six at the annual Canyon Classroom Teachers Association dinner Tuesday night. New officers of the association were also installed.

Pins for 10 years service were given to Mrs. Cortez Dowlen and Mrs. Lillian Graham. Fifteen year pins went to Mrs. Mary Weeks, Mae Simmons and Mrs. E. N. Peppard. Mrs. Irene Ball was given a 20-year pin.

The service pins are awarded by the school board in recognition of long service. They were presented by Supt. Joe Gibson.

Miss Simmons will be the new president of CCTA, and Mrs. Flora Phillips is the outgoing president. The new officers were installed by Mrs. Rex Reeves.

Other officers are Mrs. Sidney Burgess, first vice president, Mrs. Zula Usery, second vice president, George Cristy, treasurer, and Mrs. Weeks, secretary. Mrs. Lee Foster is parliamentarian.

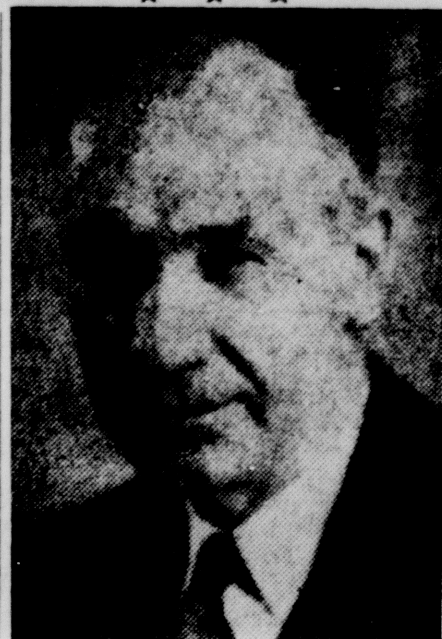

College Names Ross as Speaker At Annual Graduation Ceremony

The president of Colorado State College, Dr. William R. Ross, will be speaker for the spring convocation May 24 at West Texas State College.

The convocation will be held for more than 300 candidates for degrees, with the exercises in the field house. Other activities for the candidates will be a senior day assembly May 21 and a reception for graduating students and their families given by President and Mrs. James P. Cornette on May 23.

Under President Ross's guidance, Colorado State College is engaged in a \$10,000,000 program of campus construction and improvements. The college has completed several new buildings and has bought additional land near the campus on which to construct other new buildings. These include a new laboratory school and a science building, both of which will cost more than \$1,000,000.

Dr. Ross joined the faculty of Colorado State College in 1942; previously he held public school

WILLIAM R. ROSS

administrative and teaching positions in Colorado. He received his Ph.D. degree from Colorado State College in 1940 and has two degrees from Colorado State University.

He served in the Army in an engineering unit in World War I, and he is a member of numerous organizations and societies.

Dr. Ross recently was appointed chairman of the commission on colleges and universities of the North Central Association of Colleges and Secondary Schools, and he has served on various committees of the association as chairman.

4-H Girls Win 3 First Places

Randall County representatives racked up three first places in the District I 4-H elimination contests held here Saturday.

First place winners were Lucy Tucek, dairy foods individual; Ann and Janie Fisher, vegetable preparation teams; and Sue and Judy Frank, dairy foods team.

Second in the dairy foods individual was Linda Metcalf, and Cynthia Brown was third.

John Brazzil, county agent, was in charge of the soil judging contest, and Mrs. Mona K. Hildreth, home demonstration agent, judged record books.

Charles Smallwood, head of the West Texas State College agricultural department, welcomed the contestants to the college campus in the group's only general session.

Permits Near Quarter Million

Building permits issued during the past month brought the year's building total to within speaking distance of a quarter of a million dollars. The month's permits were top-heavy with construction of new residences.

Included are five permits for Foster-Vaughan Development, and four other new houses. Permits for new construction of homes totaled \$72,500. Repair, remodeling and additions to residence totaled \$7,300 in five permits. Repairs and addition to business buildings included one permit for \$5,000.

The building total for the past month was \$85,300, and the year's total is now \$244,050. Permits issued include:

Cooper Homes for Foster-Vaughan, 2600, 2602, 2606, 2610, and 2612 Twelfth Avenue, residences, March 30.

N. D. Watson, 506 Ninth Avenue, addition, April 7.

Ray S. Franklin, 605 Fifth Avenue, move in residence, April 16.

Jim Carter, 701 Fourth Avenue, remodel, April 15.

Bill Griffin, 409 23rd Street, move in warehouse and rebuild, April 20.

Russell Thompson, 503 Third Avenue, residence, April 20.

C. N. Cosby, 2611 Fifth Avenue, move in residence, April 20.

M. R. McReynolds, 2510 Sixth Avenue, remodel residence, April 21.

W. M. Higdon, 601 18th Street, remodel residence, April 28.

G. J. Barker, 2704 Second Avenue, remodel residence, April 28.

Pat Messenger, 2403 Tenth Avenue, residence, April 30.

Wreck at Intersection

Three youngsters riding in the pickup truck were injured in a wreck Sunday, as was the driver of the car which stopped about 200 feet away in a pasture. The wreck occurred nine miles west of Canyon.

Sunday Wreck Injures Four

All four people involved in a two-car collision Sunday morning were injured. The collision occurred at the intersection of Farm-to-Market roads 168 and 1062, nine miles west of Canyon.

Injured were Walter Dale Cain, 21, a student at West Texas State and pastor of the Palo Duro Baptist Church; Eugene Stocker, 18, of Route 1, Canyon; Frances Stocker, 14, and Billy Max Stocker, 12. All were taken to Neblett Hospital in Warren-LaGrone ambulances.

Cain was dismissed following treatment. Eugene Stocker was dismissed from the hospital Tuesday morning, and both Frances and Billy Max are still in the hospital.

Investigating highway patrolmen said Cain was driving west on FM 1062. He was on his way to the church for services.

The officers said Eugene Stocker was driving a pickup truck north on FM 168. He and his brother and sister were on their way home from attending Catholic mass at Umbarger.

Following the collision in the intersection, Cain's car traveled about 200 feet, through a fence and into a pasture owned by Frank Begert. All the occupants of both vehicles were thrown out after the collision.

HD Clubs Slate Luncheon Friday

A county-wide meeting of home demonstration clubs will be held Friday in the American Legion Hall for a salad luncheon and observation of home demonstration club week.

The session will begin at 12:30. Special guests will be Mrs. Wilmer Smith, state president of Texas Home Demonstration Association, Mrs. Melton McGehee, vice president, and Edith Lois Wilson, district agent.

Merriment, Intentness Contrasted In Operas Being Presented Here

The rollicking merriment of Gilbert and Sullivan will be contrasted with the dramatic intenseness of Gian Carlo Menotti, when two short operas are presented here at West Texas State College Thursday and Friday.

The two shows will be presented at 8 p. m. both nights in the Education Building auditorium and are produced by the Opera Workshop, directed by Royal Brantley. He will be assisted by Mr. and Mrs. William A. Moore in stage direction. Admission will be \$1.00 for adults and 50 cents for children.

"Trial by Jury" is often called Gilbert and Sullivan's only true opera, since it is sung in total without spoken words or dialogue. It is light farcical comedy built around a breach of promise suit,

and its music is typical of Gilbert and Sullivan.

Menotti's "The Medium" enjoyed a long run on Broadway and is sometimes called a musical play rather than opera. The story deals primarily with a seance faker and her experiences with the spirit world and her relationships with her innocent daughter and a mute gypsy servant. It is set in modern times and its story is dramatically intense.

In the "Trial by Jury" cast are Frank Frisbie of Amarillo as the learned judge, Donnis Plunk of Amarillo as Angelina, the would-be bride, James Jackson of Tulia as Edwin, the defendant, Tom Frisbie of Amarillo as counsel for the plaintiff, Larry Jones of Amarillo as the court usher, and Kenneth

Taylor of Pampa as the foreman of the jury. There will be a chorus of jurymen, bridesmaids, and Lady spectators.

Portraying the medium, Madame Flora, will be Marian Forbau of Quanah. Her daughter Monica will be Christine McFarlan of Pampa, and Toby, the young mute gypsy, whose part is entirely in pantomime, will be played by David O'Keefe of Amarillo.

Playing the guests at the seance are Betty Blackman of Amarillo as Mrs. Gobineau, David Whitley of Pampa as Mr. Gobineau, and Betty Lou Overall of Pampa as Mrs. Nolan.

An orchestra for the productions will be made up of WT students and members of the Amarillo Symphony.

Foreign Policy Speech Will Climax Annual Historical Society Meet

Climaxing the annual Panhandle Plains Historical Society meeting here Friday will be a banquet at 7 p. m. with Gen. Albert C. Wedemeyer speaking. More than 350 persons are expected to attend.

The banquet will be held in the college cafeteria, and the society's business and executive committee sessions will be held in the Panhandle-Plains Historical Museum.

An executive committee meeting is scheduled at 2 p. m., and the annual business meeting for members and board of directors members will be held at 3 p. m. New officers and new members of the board of directors will be elected at the business meeting.

Gen. Wedemeyer will speak on "Reevaluation of Our International Policy in an Atomic Age," and he will be introduced by J. Evetts Haley of Canyon. Toastmaster and presiding over the society's business sessions will be Frank J. Shaller of Canadian, president of the society.

Invocation for the program will

be given by the Rev. Arthur Burr Morris, pastor of the First Presbyterian Church of Canadian. Special music will be given by Mrs. Thelma Fulton of Canyon, a soprano vocalist.

An autograph party for Gen. Wedemeyer, author of "Wedemeyer Reports!" will be held before and following the banquet. About 200 copies of the book, which has been on the best seller list, will be available.

Officers of the society include Shaller, president, E. A. Archambeau of Amarillo, first vice president, C. P. Buckler of Pampa, second vice president, McClure, executive secretary, and Dr. Hattie M. Anderson of Canyon, recording secretary.

On the executive committee with the officers are Harold D. Bugbee of Clarendon, Dr. James P. Cornette of West Texas State College, J. Evetts Haley of Canyon, Newton Harrell of Claude, J. Henry Sears of Hereford, and Floyd V. Studer of Amarillo.

Poisoning at Buffalo Lake Brings 'Fishermen' of All Ages--Crowds Lined the Banks the First Morning

Buffalo Fish Killing Attracts 10,000

Nearly 10,000 people thronged the shores of Buffalo Lake last Wednesday to witness the killing of the fish population in the lake, and to try to pick up some of the fish killed by chemical action.

Some 80 gallons of Toxaphene were sprayed on the lake by air-

plane early Wednesday morning. The dosage was too light, however, and on Thursday an additional three barrels of Toxaphene and one of acetone were put into the water from boats.

Soon after the second treatment, carp began to rise and those at the

lake had a field day gathering them in. The fish continued rising in the days following, and as time went by, larger fish were seen and were picked up.

The poisoning of the lake was accomplished in order to clear the water of rough fish and to allow

the restocking of game fish. Fishing in Buffalo will be closed until next year.

The lake will be open for boating, and biologists expect that the water will clear up after all the carp have died. Carp are bottom feeders, and biologists say they keep the mud stirred up.

Clean Up Canyon Next Week

Spring and cleaning. Those are two words which have become nearly inseparable. To the housewife, nothing is quite so satisfying as the wakening from winter doldrums to the constructive action of cleaning, scrubbing and polishing.

If we add to the basic spring mixture the ingredients of repairing steps, roofs, electrical appliances, painting interiors and exteriors, and planting flowers, Canyon will reflect Nature's awakening.

Springing up in Canyon doesn't always wait on Spring. Since Clean Up week last year, many of Canyon's businesses have fixed their faces much as a college co-ed does for a formal dance.

When Clean Up week started last year, four merchants were putting in new store fronts — Anderson Appliance, Cheatham's, Canyon Drug and T. A. Black. During the year, Cooper's Market and Bellah's Supermarket have different outlooks. Western Auto and The Pharmacy have spruced up. Buffalo Barber has a new front. Burrow Lumber has had a new paint job — and we wonder how many gallons of paint that took.

The Canyon Cleaners added a drive-

Stupid Southerners

Some people in the South are stupid. In little more time than it takes to tell about it, white men in two localities pull stunts that will have the end effect of the United States Congress stealing more of the individual rights of everyone through civil rights legislation.

In one locality, a mob took a negro man from jail and despoiled of him. The negro was accused of raping a white woman. In another locality, a gang of white men raped a negro woman. In the second instance, the men were arrested quickly and put in jail. We'll bet that no mob of negro men will take them out and lynch them.

A double handful of new laws would not have kept the lynch mob out of that Alabama jail, nor would they have kept the rape-minded whites away from the negro woman in Florida.

But the Congress is sure to pass some more laws that will put the federal government in more direct contact with individuals, bypassing state and local authority.

Some people in the South are so stupid it hurts to think of it.

up window and a new look. Just look around town to see the additions and changes made during the past year.

This is no time to rest on laurels, however. Extra effort should be made next week to clean up vacant lots and alleys, paint up fences, houses and buildings, fix up sagging porches and other things damaged by time and weather, and plant up yards and gardens.

Canyon can be the prettiest town in the Panhandle — but we've got to make it so. Clean Up-Paint Up-Fix Up Week is the time to get a good start.

Our Legislature

Some time back the house of representatives in Austin passed a joint resolution that would change the method of apportioning representatives to the house. The bill was aimed at Houston, Dallas, San Antonio and Fort Worth, with Houston as the immediate target.

Houston is growing so fast, and has grown so large, that each of the representatives from Harris County is elected by better than 100,000 people. At the other end of the scale in the house, some representatives are elected by a few thousand people who live in several counties.

The resolution would provide that no county would ever have more than nine representatives except in counties that exceed 900,000 population. Such counties would be entitled to one additional representative for each 400,000 people over 900,000.

The present law provides that a county may have seven representatives when the population is not more than 700,000. After reaching the 700,000 figure, there can be an additional representative for each additional 100,000 people.

The resolution, of course, would mean a change in the constitution. It must be approved by the senate, then must be voted by the people.

Houston, with a million population, would have 10 representatives under the present law and nine under the proposed law. And that's not fair.

Slice the idea any way you want to, and it still adds up to disenfranchising the people in a city. There's no sense to it, there's no justice to it. The senate should refuse to pass the resolution, and if it does not refuse, the people should vote it down as a constitutional amendment.

I GIVE YOU TEXAS By BOYCE HOUSE

Why do fiction-writers continue to write: "Helen has seen 20 summers?"

Would she not also have seen 20 winters, 20 springs and 20 fall-autumns, that is?

Wouldn't it be simpler just to say, "Helen was 20 years old?" Besides, I happen to know that she is 37, if she's a day.

An Oklahoma lady said that the biggest thrill of a trip to Europe was, because of a freak reception, hearing over the radio a news story from Oklahoma.

If hearing a local news story is the biggest thrill of a trip to Europe, why not just stay home, sit by your radio and save all that money, time and bother?

Incidentally, the news story the traveler heard was that an Oklahoma reporter had been acquitted of violating the state liquor law

Academics was the name given to a series of philosophers who taught at the Athenian Academy.

for having a bottle of whiskey.

What's sensational about that news item? If an Oklahoma reporter has a bottle of whiskey, you can be sure he didn't buy it; and you can also be sure that he has no intention of selling it.

When James A. Garfield was running for president, a supporter, Senator Roscoe Conkling of New York made a speech which was four hours long. Conkling was a great orator but audiences nowadays will not listen for longer than an hour, and a speaker, to be safe, had better be briefer than that.

Booger Red tackled the roughest horses to be found at rodeos. He was the only Texan who was never bucked off a horse — (except me; I've never been on one.)

Van Kennedy, noted newspaperman who now operates a television station and radio station in Corpus Christi quotes a sentence by an unknown author:

"The greatest tragedy is not right against wrong; it is right

against right."

William Powell, the movie star, says in your early days, you wonder if you'll ever get there; then, after you get there, you wonder if you'll be able to stay.

3 GOOD REASONS FOR COOKING ELECTRICALLY!

1 FAST

Electric cooking is fast! Just a simple water boiling test proves the speed of electric cooking. And, it's because all the heat goes into the pan to cook the food—none escapes up and around the sides of the pan to heat up the kitchen. This means cool cooking — best of all, fast cooking.

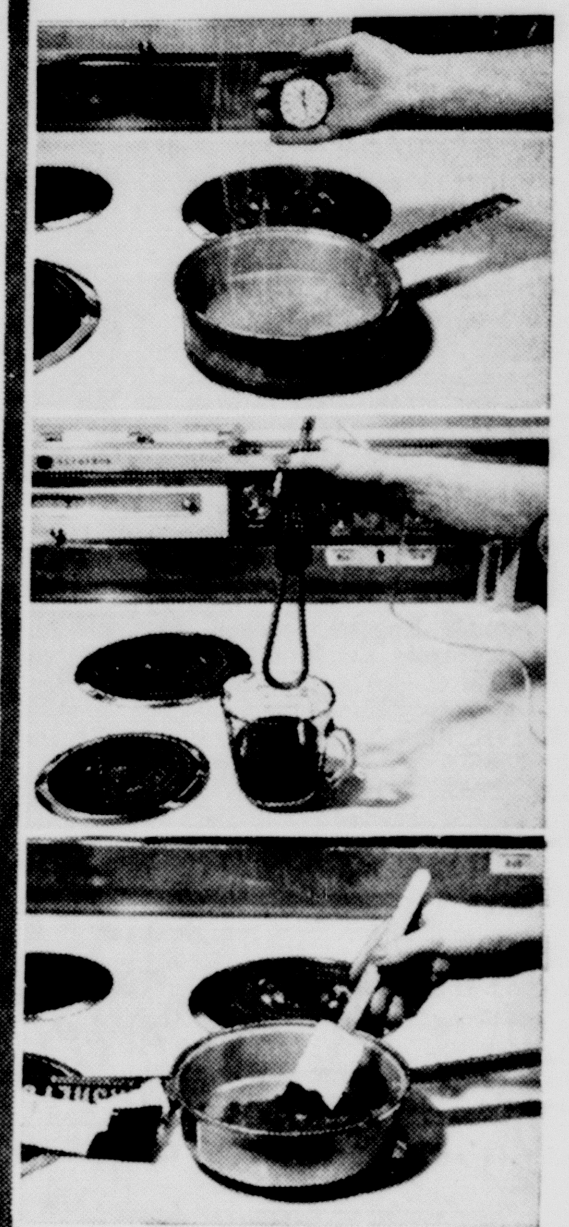

2 CLEAN

There's just no cleaner way to cook. Electric elements clean themselves as this dramatic molasses test proves. The electric element in the photo, just like the surface unit on top of the range, when turned on and immersed in a pitcher of sticky molasses comes out clean. With electric cooking, walls stay clean, elements stay clean and drip pans wash clean as easy as saucers.

3 ACCURATE

You've noticed that where automatic controls are used in your home they are electric. That's because electric controls accurately and is, in turn, easy to control accurately. That's why, on an electric range, you can melt chocolate without burning and without a double boiler — so gentle, so safe, so accurately controlled is electricity.

Harold Hudson in the Ochiltree County Herald: We received an interesting letter this week from a fellow at Huntsville asking for a job as a linotype operator. This gentleman, an inmate in the state penitentiary, said he was doing five years for an attempted murder of his wife. "I realize now that this was wrong," he said. "And I am sorry for committing such a silly act." This is the first time we have ever heard the expression "silly act" applied to attempted murder, but maybe it was.

Ernest Joiner in the Ralls Banner: Ralls is probably the only town in America that admits she can't police herself. Somebody has sold official Ralls on the idea that she can't even have a city court. There is also a well-grounded legend that nobody in Ralls can arrest anybody in Ralls, regardless of circumstances. Ralls has hired two or three "laws" in times past, but they were chased out of town for giving tickets to some teenage punk whose father happened to be a taxpayer. The city is still thinking about hiring a town mar-

shal. I suggest they get one with no sense of justice or decency — just a sense of protecting his job by strict enforcement of the law. He should not have any relatives in Crosby County, and should be paid enough not to ever have to open a charge account with merchants who have been known to put the squeeze on "credit customers" who don't toe the line. All those statutes on the books at the city office are useless unless they can be enforced, and they never have been! A couple of years ago an ordinance was passed to rid the city of open-pit toilets. Our citizens fought as well to retain these family heirlooms as their forefathers did at Bunker Hill. They fought in the streets, at public hearings, in the courts, and at the hedgerows. A few of them lost, but the majority remains dug in behind their out-door toilets with muskets at the ready for any "law" foolish enough to make them tie into a sewer line that runs within 50 or 100 feet of their mail-order catalogued temple of meditation.

Washington Report World Health Concerns Us

By Representative Walter Rogers
18th Congressional District

Since this seems to be an age of fear, and each of us lives from day to day wondering what the morrow will bring for us to be more scared of than we were of the stark tragedy that was to befall us yesterday, it occurred to me that the people of this country might be interested in the present health of the world. I must confess I have never been too deeply concerned about our chances of being ripped apart or destroyed by some hobgoblin that is the creature of the mind of some fellow

human being. Usually these unworriedly creatures of destruction are born because of the desire of some scare artist to capture the attention of the American people. I do not mean to say I am not concerned by the many problems which daily confront human beings in the battle for existence. I look upon these daily difficulties as problems to be solved by human beings, rather than as catastrophes against which there can be no defense. I do not believe that man can

destroy the earth, hard as he has tried since God placed us here. I do believe that each year brings man closer to the realization that a proper utilization of the faculties with which God has endowed him will bring greater benefits to future generations, and avoid the necessity of periodic intervention by God to prevent man from destroying himself.

I feel that the proof of this theory lies in the advance which has been made in health matters during our lifetime. Although there is much to be done and the future will require much to be done, the progress to date is remarkable. More than 25 percent of the people of the world can now expect to attain an age of 65 years. Strange to say, the highest life expectancy rate is in Norway. There, it is 73 years.

Others enjoying a rate of 70 years or more include the United States, Australia, the United Kingdom, Sweden, and Japan. These are all highly developed countries from an industrial standpoint. Russia has a reported life expectancy rate of 66 years at the present time.

Those having a rate of above 50 years include the southern portion of South America, Spain, some central European countries, the Philippine Islands, the Sudan in Africa, Mexico, and others. The lowest rates of life expectancy are in central and northern South America, southwest Asia, India, Egypt, and others. It is also noteworthy that very few of the countries enjoying high expectancy rates are located near the Equator, yet most of the countries with the lowest life expectancy rates are located at, on, or near the Equator.

Whether or not this geographical location has any effect on the situation, I do not know, but it would seem that such is the case. Also considered is the fact that most of the countries having the low expectancy rates have a high percentage of poverty. In summarizing the world data, we find that 801.3 million or 28.7 percent of the world population have an estimated average life expectancy at birth of 50 years; 278.5 million or 10 percent of the world population have a life expectancy of between 50 and 64 years; 713.9 million or 25.6 percent enjoy a life expectancy of 65 years or more.

It should also be said that approximately one-third of the world's population, 996.3 million, cannot be the subject of such information because there is not sufficient data from which to make an estimate.

In 1957, it was estimated there were 2,790 million people living in the world. More than one-half, or approximately 1,400 million, live in Asia, 204 million live in Russia, and 174 million in the United States. This population is increasing at an accelerating rate, due primarily to the declining death rate, rather than an increased birth rate.

The fastest rate of increase occurs in Middle America, where it is 2.7 percent. It is 2.5 percent in southwest Asia, and 2.4 percent in South America. The smallest rate of change occurs in Europe, where it is 0.6 percent. The fact that America is ahead of the other countries in the increase of population is due primarily to the great strides which we have made in the solution of health problems and the splendid contributions to medical science by our medical profession.

So long as good health conditions continue to grow better and better, producing strong, healthy human beings, and these on the increase, I do not believe we should have much fear about being overtaken by some grave catastrophe that will wipe out all humanity.

Quick Supper Menu For Cleanup Days

Clean-Up-Paint-Up-Fix-Up work is satisfying and beautifying but sometimes tiring. However, a quick shower and an easy supper will help you shake off any feelings of weariness.

You can "fix-up" the old-fashioned hot dog as the star attraction of your post-cleaning dinner by splitting the frankfurter and stuffing it with sharp cheese. Then wrap it in a partially fried bacon strip and place the "pig in a blanket" under the broiler.

Open a can of baked beans, place the contents in a baking dish or casserole, cover with the extra bacon strips and heat in a moderate oven.

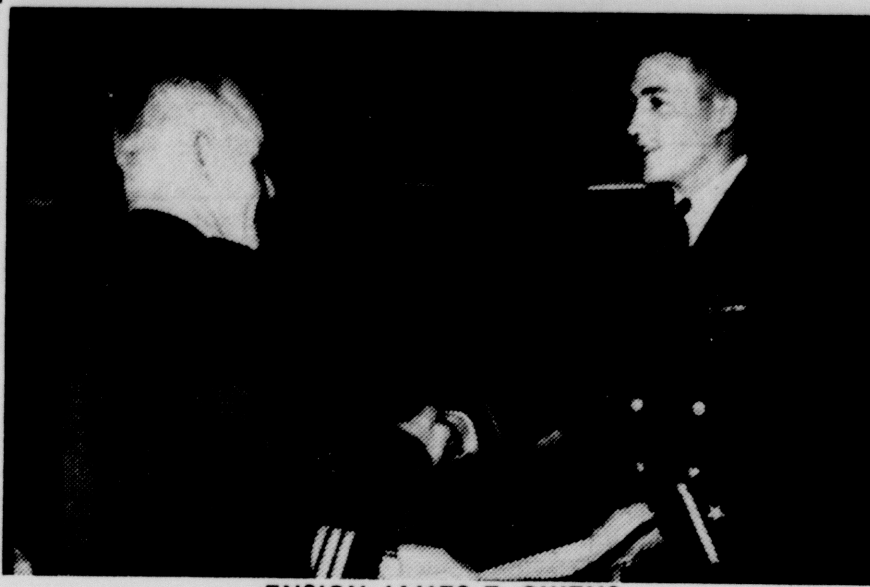

A bowl of crisp potato chips, a tossed salad of lettuce, cucumber and tomato, and a tray of your family's favorite relishes will complete your supper with ease.

Paper plates and cups can be used in keeping with the picnic atmosphere and will leave you rested and ready to enjoy the evening.

Story Deadline This Sunday

Deadline for entries for literary manuscripts for the annual Writers' Round-up at West Texas State College is Sunday, according to Dr. A. K. Knott, head of the English department which sponsors the conference.

The round-up will be held here June 1-5 and will feature a number of outstanding speakers and writers from the region. Director is Loula Grace Erdman, associate professor of English and well-known novelist.

Manuscripts for the contest may be in the novel, short story, or article, with each contestant limited to one entry. Manuscripts must be typewritten and must be original, unpublished and must not have been presented on radio or television. The entries should be submitted to the WT English department in Canyon.

First prize for the novel will be \$50, with a second and third prize of \$25 and \$10. The short story winner will receive a prize of \$25, with second and third prizes of \$10 and \$5. Prizes for the article include \$5, 10 and \$5.

In the novel contest only representative chapters, not more than 8,000 words, should be submitted. Dr. Knott said. Contest fees include \$8 for the novel and \$4 for the short story and article.

An awards dinner will be held June 4 and winners of the contests will be announced.

Reading and discussing the manuscripts will be Maurice Crain, a noted New York literary agent who will be a featured speaker for the conference.

WSCS Sponsors Banquet Friday

A mother-daughter banquet is being sponsored by the Woman's Society of Christian Service Friday at 7 p.m. in Fellowship Hall of the First Methodist Church. Program will be a style show, using fashions from McDonald's Shop. Tickets are \$1 for adults and 50 cents for children under 12.

Some men try to substitute other things for character and reputation.

CARD OF THANKS

I wish to take this opportunity to thank the Canyon Fire Department for their help, their efficiency and their ability to come so quickly when needed, also to my neighbors and friends for their calls, their visits and their help during the fire at my home. "Thank you."

Mrs. Nina White

To all my friends and neighbors many thanks for gifts, flowers, cards, and all kindnesses shown during my recent inactivity. Special thanks to the doctors and nurses at the hospital.

Joyce Shellnut

Fairview Breezes

Charles Pierce preached Sunday morning and evening.

Nancy Cobb of West Texas State College visited over the weekend with Nan Earley Gauthreaux.

Pat Patterson and Gene Shipman returned from Austin Saturday night. They, along with other Happy High School students, had participated in contests there. We understand Gene won first in the dairy judging at Lubbock the week before.

Mr. and Mrs. Wayne Wesley and children visited Sunday with Mrs. Serena Bryan. They planned to visit in the John Littlefield home in the afternoon.

Lloyd James of the Air Force is visiting with the Littlefields. He has been serving in Korea. Jiggs and Mrs. Littlefield are brother and sister of Mrs. Wesley.

Mr. and Mrs. Charles Pierce and Chuck were luncheon guests Sunday in the home of Mr. and Mrs. G. E. Wesley.

Mr. and Mrs. J. W. Wesley returned from Brownfield April 27. The spent a week at the D. L. Whitsons taking care of the grandchildren while the Whitsons attended a bowling school in Dallas.

Mrs. Virginia Liston flew to Salt Lake City, Utah, yesterday to be with her children for Mother's Day.

Mr. and Mrs. H. H. Shipman attended the funeral of Mrs. Dallas Culwell at Vigo Park church Sunday. Burial was at Wayside ceme-

tery. She was formerly Lois Moore and a cousin of Hollis.

Visitors at church Sunday were June Foster and her children, Nancy Cobb and Ray Wesley.

Mrs. E. M. Wilson dislocated her hip and bruised her knee last week. She is under a doctor's care.

Mr. and Mrs. J. W. Wesley visited Saturday afternoon with Mr. and Mrs. Woodrow Wesley.

Mrs. Virginia Liston and Serena Bryan visited a short time Tuesday with Mrs. J. W. Wesley.

Woodrow Wesley and boys assisted by Squad Hurst and son and George Denny and son worked cattle Saturday.

Paulann and Connie Foster were in a music recital in Happy Sunday afternoon.

We received .30 of rain Thursday afternoon. Some reported as much as 1.50.

Letha Patterson and daughter, Pat, were unable to come to church Sunday.

Mrs. Jim Williams has been ill. Mr. and Mrs. Williams lost their infant daughter April 23. Mrs. Williams, the former LaVenia Amerson, was released from the hospital last Wednesday.

Mr. and Mrs. G. E. Wesley visited Mrs. Williams Sunday in the Dalhart hospital.

The Tongue and Thimble Club will meet Thursday afternoon at 2:30 with Madge Sutton.

The E. E. Wesleys have moved into their new home.

Mrs. E. M. Wilson and Frank Rogers attended the funeral of Mrs. Dora Folk at Seagraves April 22. Mrs. Folk was the mother of Bernice Wesley and Harry Folk.

Betrothed

The engagement of their daughter Norma to Raphael Gunnels of Amarillo has been announced by Mr. and Mrs. Norman Glenn, 1902 Eighth Ave. Parents of the bridegroom-to-be are Mr. and Mrs. Marle Gunnels, 3113 Curtis Drive, Amarillo.

WT Teams To End Season at BC Event

West Texas State's golf and track teams will wind up their 1959 schedules when they compete in the annual Border Conference Meet Thursday and Friday at Tucson, Ariz.

The golfers have won four of six dual matches and participated in the Southwestern Recreation Meet at Fort Worth and a 10-team college tournament at Abilene.

No. 1 player for the Buffs is David Lard, Amarillo junior who is undefeated in match play this year. Rounding out the squad are Max Manley, Amarillo senior; Keith Hodges, Hereford junior; Ronnie Holder, Borger sophomore; and Russell Mathis, Amarillo sophomore.

Coach Jack Weldon will take a squad of nine to the conference track meet. The Buffs figure to be strongest in the sprints, where sophomore Ray McCown has run a 9.8 century, and the weights.

Representing West Texas in track will be McCown, sprints and 440 relay; Jimmy Janes, 440 relay; Don Blair, 440 and 440 relay; Ned Jolly, 440 relay; Leon Manley, weights; Arvin Ellithorp, weights; Warren Tuckness, discus; Henry Hardaway, high jump, and Bob Barrick, pole vault.

RAMBLING AROUND

DOYLE G. THOMAS
ASC Office Manager

The lower price support on feed grains this year has stirred up considerable interest among farmers in storing grain on their farms. In fact we would venture a prediction now that there will be more farm stored grain this year than at any time in the past. Generally there are two reasons for farmers thinking this way. One is the fact that storage can be saved. The other is that grain when stored on the farm can be marketed more easily and can be fed to livestock if the market is not right.

We feel sure that many farmers do not understand the program available to them for building storage facilities on their farm. Under this program loans can be made to construct needed facilities. The County Committee will loan up to 80% of the cost of construction.

The loan bears 4½% interest and is to be repaid in 4 equal installments spread over a 5 year period. The size of the building that can be loaned on is determined by computing the average production for the farm over a two year period. Farmers interested should contact the ASC Office well in advance of the start of construction. The loan must be approved before construction is started.

All initial measurements of wheat have been completed. We urge farmers with excess acreage to notify us when it has been destroyed so that we can get it checked early. By doing this it helps us to spread our work out over a longer period of time and as a result reduces our cost. In addition, it will not delay the farmer in getting his wheat marketing card.

In our column last week, we talked about controlling weeds on acreage seeded to grass. We made a round over the county this past week and noticed that weeds, especially Russian Thistle, were pretty solid in some fields. These weeds are small now and can be easily controlled.

We urge all farmers with new grass acreage to look their fields over and if necessary get after these weeds before they get too big. A \$1.25 spraying now can eliminate two or three mowings later in the year. Experience last year showed that if a good job was done in getting the first crop of weeds very little difficulty was encountered the rest of the year.

Bachman-Foster Betrothal Told

Mr. and Mrs. Henry Bachman of Stratford have announced the engagement and approaching marriage of their daughter Dorothy Lucille to Richard "Dick" Foster, son of Mr. and Mrs. Jack Foster of Happy.

The wedding date has been set for June 6.

Tips for Safe Ladder Usage

Ladders are handy tools around the home in maintenance and repair work, but like most tools, there is a right and a wrong way to handle a ladder. Avoid hazards by following these few hints and prevent accidents during the Clean-Up, Paint-Up, Fix-Up period, as well as throughout the year.

Never stand on the top of any step ladder. Make certain a step ladder is fully opened and locked before you use it. The bottoms of all ladders should be on a solid footing, or otherwise anchored securely.

To be safe, also place rung type ladders at proper pitch so the distance from the bottom of the ladder to the house is approximately one-fourth of the length of the ladder (if angle is greater, the ladder may break or, if too close to the house, the ladder may tip).

Set ladder properly to avoid the mistake of over-reaching or leaning too far to one side, which is dangerous. Always face a ladder when ascending or descending and don't carry large or heavy objects

a thorough sweeping. A good hose down, or scrubbing if necessary, is next on the agenda. You may wish to give the interior a coat of light-hued paint so that night-time searches for garage items are easier, thanks to the higher reflectance of light paint.

In returning items to the garage, there are doubtless several that can be eliminated. Get rid of old greasy rags. Gasoline and other flammable liquids should be disposed of. Unused and outgrown toys should be given away to an orphanage or other charitable organization.

The ceiling space of the garage is a good source of storage and simple nail insertions to the beams will hold rakes, hoes, and shovels. Bushel baskets can be stored aloft, too. Perforated beaver board can be fitted to one wall to hold miscellaneous small items.

When you store paint cans, place a dab of the hue on the outside of each can for easy identification. Then secure lids tightly.

Turning to the exterior of the garage, cut back close-by bushes that obstruct vision. A flower box installation or planting climbing roses, morning glories or a sapling behind the garage will aid in changing the appearance of the garage from an orphan building on your lot into an attractive adjunct to your home.

While Clean-Up-Paint-Up-Fix-Up won't change the dimensions of your garage, by following the above steps you'll find you have a great deal more room, in addition to a safer and more beautiful garage.

Merit Award Winners

Merit Award winners at Canyon High School include Suzanne Lemons, left, Choir; Melba Haile, Speech; Bill Cornette, Speech; Carolyn Campbell, Business Administration; Larry Brotherton, Industrial Arts; and Margaret Johnson, Speech.

— use a rope lift. Grip ladder firm with hands and be certain your shoes and the rungs or steps of ladder are free from oil, grease or mud.

Do not use makeshift or patched up ladders. Take good care of your ladder — do not leave it out in the weather to deteriorate.

A ladder is a great help in renovation work. Use it correctly and be sure you respect it as you do other good equipment and always keep safety foremost in your mind.

During one session of Congress 46,000 bills and resolutions were introduced.

Garage Space Grows At Cleaning Time

Has your garage shrunk lately? It may well seem that way if a pile of discarded household items, children's toys, wood stacks and other non-descript items have nar-

rowed the car space.

Clean-Up, Paint-Up, Fix-Up Week is the ideal time to re-do the garage, organizing its contents, cleaning, painting inside, planting outside.

First of all, remove everything from the garage and then give it

Do you have:

1. Uncluttered, well lighted stairways with sturdy handrails and firm treads?
2. Floors even, rugs and carpets free from rips or tears?
3. Kitchen and bathroom efficient and up to date?
4. Painted surfaces in clean and sparkling condition?
5. Roof, siding and flashing in good condition?
6. No cracked bricks or loose mortar?
7. All flammable and oily cloths or materials in closed metal containers?
8. Old newspapers, unused furniture and clothing disposed of to aid charity?
9. Electrical equipment in good repair? Frayed cords replaced?
10. Screens repaired, dry weeds, dead grass, rubbish removed from property?
11. Flues, chimney, heating plant checked and cleaned?
12. Preliminary garden and lawn care completed?
13. Covered garbage and trash containers with cleaned-up surrounding area?

Demonstration Club Sees 'Tenderfoot'

Fourteen members of the Canyon Home Demonstration Club attended the showing of "A Tenderfoot In Europe" at the film room in the West Texas State College library Friday morning.

The film was shown by Mrs. W. L. Smith. The scenes were made during a European tour last summer by a group of residents from this area, and "Cotton John" narrates the film.

After the show, the group went to the Spudnut Shop for refreshments.

Coke Will Head Methodist Group

Elizabeth Coke of Canyon was elected sub-district president of the Methodist Youth Fellowship as the group met at the First Methodist Church here Sunday afternoon.

Other officers are Jim Useiton of Hereford, vice president; Sarah Ragle, Canyon, secretary-treasurer; Pat Haley, Canyon, publicity; Donna Fields, outreach; Marie Dowlen, Canyon, Christian witness; Kerry Knorpp, Canyon, fellowship; Larry Anthony, Friona, faith; Clint Conway, Hereford, citizenship; and Bill Bradley, Hereford, adult sponsor.

Plant Up in the Park

Mrs. Bob Lindsey, president of the Junior Womens Book Club, prepares to plant one of nine rose bushes purchased by the club for Conner Park. The bushes are planted in the area near the memorial that the Canyon Garden Club is also beautifying.

Check Medicine Cabinets Now

Make certain your medicine cabinet is a health aid and not a hazard by checking it now, at Clean-Up, Paint-Up, Fix-Up time.

First of all, throw away old medicine particularly prescription-type. Age, even a few months, adversely affects medicines plus a new illness, though having similar symptoms, may be entirely different from the previous one. All external poisonous medicines should be checked for plainly-marked labels and placed on the top shelf, away from inquisitive tiny fingers. Don't guess the contents of bottles without labels. For safety's sake throw them away.

After old medications are disposed of, check that the cabinet contains basic necessities for first-aid treatment for minor accidents and illnesses. Minimum requirements are a clinical thermometer, aromatic spirits of ammonia, cotton, adhesive bandages, sterile bandages, antiseptic, burn ointment, rubbing alcohol, medicine dropper, tweezers, adhesive tape.

As an adjunct to your first aid supplies, have the phone-numbers of your doctor and local rescue squad or ambulance service by

each phone and a copy pasted inside the medicine chest door.

Let Clean-Up, Paint-Up, Fix-Up promote your health by checking up and cleaning up so that you will be prepared should an emergency arise.

Check Health Hazards During Cleanup Week for Healthier Environment Here

The Clean-Up, Paint-Up, Fix-Up Campaign is a specific means to a healthier environment.

Clean-Up, Paint-Up, Fix-Up Week is an excellent time to check for common health hazards. Make certain your garbage and trash cans are covered, that woodpiles are away from the house, and all trash piles removed so that no food nor shelter is provided for rats and mice.

Examine all screens before installing them and repair any holes or tears. Be certain that there are no sluggish ponds or swampy lands on your property that are breeding mosquitoes.

Resolve that all weeds will be cut down throughout the summer and report any vacant lots that are overgrown to alleviate the ragweed problem.

By following the above suggestions and giving living quarters a thorough cleaning, a major step will be taken to insure a healthy life for all citizens.

Happiness seldom comes to those who try to live on the spice of life alone.

MIND AT EASE

The burdens of life are never too heavy for a man unless the full load rests on his conscience.

PERFECT CONTROL

Self-discipline is a habit that can be cultivated—and there's no other habit so well worthwhile.

LIPSTICK LOGIC

BY LOUISE ALLEN

Getting out the family wash has probably changed more since Grandmother's day than any other household custom. From making soap to drying clothes, any similarity between the way it was done then, and the way it's done now, is purely happenstance.

A few folks can recollect soap-making in a big black kettle in the backyard. If one lived on a farm, this usually followed hog-killing. If she was a town dweller, farm friends gave her rendered fat, or else she saved grease drippings from the kitchen until she got enough to make up a batch of soap. The process was awesome, especially for the children, who were warned away from the lye with tall tales about what it would do to them if they touched it. Then the great wedges of lye soap, smelling vigorously useful, were a grim reminder of Mondays to come.

Gathering up the clothes, drawing water to fill the great zinc tubs, heating it on a coal range — these were the preparations that promised a tough day for Mother over the washboard, with scant attention to lunch. Then followed wringing, starching and hanging out the heavy, wet objects that flapped spitefully in the wind, or else froze reddened hands to numbness.

Now — they say on t.v. — "Mother" gets into a party dress, drops a couple of spoonfuls of detergent in and casually flips on the automatic washer-dryer as she takes off for the day. While the clothes haven't actually ironed themselves and jumped into drawers when she returns, at least they're "fluffy dry, snow-white and color bright."

Yes, times have changed, and all for the better when it comes to the family wash. But kids today will never know the fun of watching long underwear billow comically in the wind; of making a gingham dress stand alone as it comes frozen from the line; or smelling an armload of sun-sweet sheets at the end of the day.

Aardvark is the Dutch name for the South African ant-eater.

Use of "abracadabra" as a "magic" word began in the second century when it was recited to expel fevers, inflammations and agues.

To Be Married

June 5 has been set as the date for the marriage of Eleanor Byrne of Amarillo to Hubert George Greiner of Canyon, on of Mr. and Mrs. Hugh Greiner, according to an announcement by her father, John L. Byrne of Amarillo.

Spearman Man Buys Strain Shorthorns

M. W. Lackey of Spearman has purchased four junior yearling heifers and a heifer calf from Jim Strain of Canyon.

The animals are purebred Milking Shorthorns and record of the transfer of ownership has been made by the American Milking Shorthorn Society at Springfield, Mo.

Worries about your children will be reduced if you put a home play yard high on your list of Clean-Up, Paint-Up, Fix-Up activities.

NEVER ENDS

A friend in need usually needs all you are willing to give—and then some.

Jamestown, Va., was originally built on a peninsula which has since become an island.

Ladies' Clubs Set Joint Session Friday

The Palo Duro and the Canyon Mother-In-Law Clubs have scheduled a joint meeting and luncheon Friday at the West Texas State College cafeteria in the Blue Room.

Everyone is asked to meet at 11 a. m. in the cafeteria lobby. Anyone needing transportation is asked to call Mrs. Fred Marshall, Mrs. Rae Walters, or Mrs. J. W. Fain.

Cole Circus
Coming Here

The circus is coming to town. The Cole Circus will show in Canyon Tuesday for a one-day stand sponsored by the National Guard, according to John A. Frazier, the general agent for the circus.

The Cole circus is celebrating its 50th year of bringing to the public the finest in circus entertainment and outstanding animal exhibits.

On the morning of May 12 into Canyon will come the fleet of 20 trucks that house the more than 100 animals, 40 people and tons of equipment and waterproof tents carried with the circus.

The erection of the first tents will start about 7 a. m. The public is cordially invited to the show-grounds to watch the big elephants help in setting up the show. Many of the wild animal cages will be open for inspection free of charge from 9 a. m. until 11:30 a. m.

Tickets for both noon and evening performances are on sale by members of the National Guard.

Troop 66 Wins First Five Places
In Bi-District Camporee Saturday

Canyon's Troop 66 hauled off all of the honors in a bi-district camporee contest of basic Scout skills last weekend. The contests

were between the Randall and Hereford districts.

The five patrols of Troop 66 won the first five places, with the Thunderbird Patrol in first place. The contests were in such subjects as firebuilding, signaling, compass reading and first aid.

The Thunderbird Patrol made 681 out of a possible 730 points

in the 12 events. The lowest ranking of the five Canyon patrols made 605, and the nearest patrol of troops in the Hereford district made 505 points.

Taking part in the camporee at Camp Don D. Harrington were five troops with 15 patrols. The contests were on a patrol basis. The camporee began Friday afternoon, and the contests were run Saturday. The Scouts returned home Sunday afternoon after having church services at the camp.

Leaders of the Thunderbird Patrol are Davis Price, Steve Burgess and Billy Walker.

In second place was the Pioneer Patrol led by Wayne Lindsey and

Robert Hutton. Third place winner was the Skunk Patrol led by Elo Myers and Tim White. In fourth place was the Tower Patrol led by Bill Phillips and Bobby Haggard.

Fifth place was won by the Cobra Patrol led by Alex de Schweinitz and Craig Bellah. The patrol, except for the leaders, is made up of new Scouts, none of whom have been in Scouting more than four months.

Weekend guests in the K. E. Hines home were Mr. and Mrs. Mark Stoneking of Vada, Wash., who were on their way to Trenton, N. J.

Merit Awards
Set for Students

Merit Award certificates will be given to a number of Canyon High School students next week in the annual assembly in recognition of scholarship in the 12 areas of the curriculum of the school.

The awards will be given to the boy and girl with the highest average in all the courses given in the 12 fields of study. Those to receive the awards, the fields of study, courses offered and averages are:

Social Studies: World History, American History, Civics and Texas History; Mayla Atkinson, 94.50; and John Menke, 94.60.

Homemaking: Three Years; Velma Frank, 96.50.

Art: Two Years; Bill Callarman, 95.0; and Marilyn Roberts, 89.33.

Industrial Arts: Two Years; Larry Brotherton, 94.0.

Business Administration: Typing; Bookkeeping and Stenography; Carolyn Campbell, 95.33.

Choir: Four Years; Suzanne Lemons, 93.0.

Speech: Two Years; Bill Cornette, 94.33; and Melba Haile and Margaret Johnson, tied with 94.33.

Spanish: Two Years; Robert Blythe, 95.33; and Margaret Juniper, 96.0.

English: Four Years; John Menke, 92.0; and Margaret Juniper, 97.14.

Math: Algebra I and II, Plane Geometry and Solid Geometry; Ann Jarrett, 94.56; and John Menke, 90.0.

Science: General Science, Biology, Chemistry and Physics; John Menke, 93.56; and Sandra Hines, 96.28.

Band: Four Years; Ann Jarrett, 95.0; and Dwayne Pettit, 90.56.

Vocational Agriculture: Four Years; Jerry Parker, 89.28.

DOUBLE GUNN BROS. STAMPS TUESDAY

By VERN SANFORD
Texas Press Association

MOST PEOPLE IN or connected with the 56th Legislature are comforting themselves with the knowledge that air conditioning was installed in House and Senate chambers last year.

IT MAY BE pretty hot, they say, before a majority of both houses come to agreement on new taxes.

HOUSE MEMBERS systematically cut to pieces the big omnibus tax bill (HB 727). As originally proposed, it would have raised \$300,000,000, mostly from scores of new selective sales taxes on items ranging from face paint to house paint. After members got through cutting out the things that brought the loudest howls, it was down to less than one-fourth its starting size.

IT WAS THEN given preliminary approval (second reading) by the narrowest of votes, 74-to-72, counting Speaker Waggoner Carr's "yes" vote. Carr stepped down from the speaker's rostrum to plead with members to pass the bill, even though it had been stripped to practically nothing, so as to "get something to the Senate."

SENATE CANNOT consider a tax bill until it has been passed by the House. But for the Senate, getting the shattered fragments of HB 727 is like getting four wheels and some broken glass with the invitation to make an automobile.

TASK AHEAD—In the days that remain until May 12, or in special sessions thereafter, the Legislature faces these decisions:

1. APPROPRIATIONS — House has passed a bill calling for \$322,000,000 in general revenue; Senate a bill for \$302,000,000. Differences must be adjusted in conference committee, which neither presiding officer seemed in a hurry to appoint. This could mean some sort of agreement that there would be no final decision on the appropriations bill until a tax program emerges.

2. TAXES — Either house's spending bill, with the deficit added in, would require something around \$200,000,000 in new tax money. This much, it seems certain, must be found somewhere.

3. SCHOOL IMPROVEMENT — Backers of the Hale-Aikin Committee program will push for adoption of at least part of that program. It would add some \$100,000,000 a year to state expenses.

ABANDONED property "abandoned" — In a vote that surprised many, the House killed the abandoned property bill, 80-to-67.

PROPOSED MEASURE would have allowed the state to take over

dormant bank accounts and property held by insurance companies, utilities and oil and gas companies if it had gone unclaimed seven years.

SOME FELT that Gov. Price Daniel, who had fought strenuously for the bill, might regard its defeat as third term fodder. He said at one time its passage meant more to him than anything since the tide-lands.

AFTERWARD, the governor said "the fight has just begun." He was critical of Speaker Carr for having allowed the measure to come to a vote when it did.

"COW BILLS" PASS — Senate has given final approval to three bills affecting ranchers and dairy-men.

A MILK BILL, sponsored by Sen. Grady Hazlewood of Amarillo, would prohibit bringing in milk from other states unless it could be established that the milk was produced under the health and sanitation standards placed on Texas producers.

SEN. RAY ROBERTS of McKinney pushed through a bill that would provide a penalty for allowing cattle to roam on state and national highways and relieve motorists of liability for hitting stock.

A BILL tightening licensing regulations of veterinarians also was passed by the Senate. Sen. Andy Rogers of Childress, sponsor, noted that there is no present law to suspend licenses of veterinarians guilty of malpractice.

WHAT'S THE USE — Senators refused, 16-to-15, to take up Sen. A. M. Aikin's bill to improve the schools and raise teacher pay.

THOSE WHO opposed said passing the bill before tax money is found wouldn't bring a "crying dime" to the teachers.

HOPEFUL TEACHERS could take some comfort from the fact that some who voted against considering the bill said they would favor it when money is on hand.

LOAN SHARK CURB PASSED — Texans will probably have an opportunity to vote in November, 1960, on whether to adopt a new approach for regulating lending practices.

BOTH HOUSE and Senate have approved a proposed constitutional amendment that would allow the Legislature to regulate the amount of interest that could be charged. Present 10 per cent ceiling on interest, set in the Constitution, would be abolished.

A CONSTITUTIONAL amendment must be approved by the voters at a general election after it has been passed by the Legislature and signed by the governor.

BACKERS of the change say it will pave the way for driving loan sharks out of Texas. Such a measure has been sought for a number of years and has the backing of Texas Legislative Council.

MORE COLLEGES OKAYED — Texas is on the way to having a new medical school and three new state-supported four-year colleges.

SENATE, IN a burst of educational zeal, passed bills to (1) elevate Arlington State College between Fort Worth and Dallas to a senior college, (2) make Tarleton State College at Stephenville a four year college, (3) make Midwestern University at Wichita Falls a four-

Mrs. Cox Hosts Variety Ring

Mrs. George Cox was hostess to the Variety Ring last Friday. Mrs. J. P. Hammons and Mrs. Earl Burtz gave readings.

Present were Mrs. Mae Johnson, Mrs. W. L. Rice, Mrs. Fred Marshall, Mrs. George Barker, Mrs. Leslie Neal, Mrs. P. L. Pitt, Mrs. Leonard Winters, Mrs. Levi Cole, Mrs. Lang Hunter and Mrs. Cox. Next meeting will be with Mrs. Marshall May 15.

year state-supported college and (4) establish a new University of Texas medical branch at San Antonio.

ALL EXCEPT the Midwestern bill already had been passed by the House.

OPEN MEETINGS APPROVED — Meetings of state, city, county and district boards and their records will be required to be open to the public under a bill given final Senate approval.

MEASURE THAT passed was a combination of Sen. Preston Smith's "open meetings" bill and Sen. George Parkhouse's "open records" bill.

SENATE Jurisprudence Committee had amended Smith's original proposal to say that closed meetings could be held "for the discussion of appointments or matters which, if made public, might adversely affect the public security or the financial interests of the state or its political subdivisions."

The man who insists on talking about himself soon has himself a one-man audience.

High Plains Station Becomes Foundation

The High Plains station of the Texas Research Foundation became the High Plains Research Foundation last Friday. The advisory council of the station is now the Board of Trustees for the new foundation.

Officers of the foundation are Frank Moore of Plainview, president; R. G. Peeler of Hereford, Ewald Quebe of Lockney and Jason Gordon of Plainview, vice-presidents; Grady Tunnell of Plainview, secretary-treasurer; Harold Hinn of Plainview, chairman of the Board of Trustees and executive committee; and R. V. Payne of Plainview, vice-chairman of the board and executive committee.

Members of the executive committee are the officers and Steve Taylor of Dimmitt, Virgil Patterson of Amarillo, Grady Goodpasture of Brownfield, George W. Pfeifferberger and Roy Mack of Lubbock.

Members of the Board of Trustees from this area are Art Bralley, Frank Tripplett, Patterson, and S. B. Whittenberg of Amarillo.

No man can cash in on the satisfaction he gets out of revenge.

Growth Rate Helps Homeowners In Selecting Trees for Yards

Before you choose a shade tree for your property as part of your Clean-Up, Plant-Up program, you should consult the tree growth table and coordinate it with your house height, personal desires and program of living.

Your type of house, ranch or two-story, will determine the right ultimate height of the prospective tree. An oak would rather dwarf a small rambler, for example. If your job appears permanent in your present location, so that your current house may be home for several decades, you can profitably purchase a tree which reaches maturity slowly. Last, but obviously not least, your personal likes in trees should influence your decision.

Let's look at the growth table. Fastest growing trees are sugar maple, American and green ash, cucumber tree, American, Chinese and Moline elms, sweet gum, silver maple, sycamore, thornless honey locust and little leaf linden. They will grow 20 to 30 feet in 10 years.

Medium growth trees — those growing to approximately 15 feet in 10 years include black walnut, Norway maple, English oak, red and pin oak, Amur cherry, Amur cork tree, beech, birch, ginkgo, buckeye, tulip tree, hackberry,

Cleaning Helps Prevent Fires

Clean Up is not just a slogan, it's a vital way to prevent fire from threatening your home and loved ones.

Firemen urge all residents to check that their homes meet these standards:

Furnace and heating system checked spring and fall.

Determine if wiring system meets today's electrical demands (Fuses blowing out often, flickering lights, appliances operating slowly are warning signals that wiring is out of date.)

Old clothes and furniture and newspapers are removed from attic, basement and garage.

Oily rags and paint-stained cloths are disposed of or kept in closed metal containers. Oily mops should be hung up so air can circulate around them.

No leaves or grass cuttings are near building foundations.

Periodic home fire drills are held with instructions on what to do should fire start from an uncontrollable cause.

hawthorn and horse chestnut.

Slow growing trees, which reach less than 15 feet in 10 years are bur oak, hornbeam, shagbark, hickory, Kentucky coffee tree and white oak.

Various coniferous evergreens also have different growing rates. Douglas fir, European larch, red pine, Scotch pine, white pine, Black Hills spruce, Norway and white spruce are rapidly growing, reaching about 20 feet in 10 years. White fir, Serbian spruce, hemlock and Austrian pine are slower.

Of course, climate and fertilization also affect the growing rate. It's a wise idea to discuss local conditions and their influence on growth with your county agent. Then with the basic facts in mind plus your own preferences you can plant the tree closest to your requirements.

Keep Glamorous On Cleaning Days

Clean up, paint up, and fix up today — be pretty tonight!

Of course. Your glamour needn't suffer if you follow a few simple beauty hints.

When you plan extensive cleaning which will raise dust, it's wise to protect your hair with a bandana. And while you're "under cover" you may want to put your hair up in pin curls to have a "set" while you work.

A special protective cream should be applied to hands and arms before painting. Then any paint splatters will be easily removed without chapping or redness.

If your hands will be in grime, you can avoid getting the dirt wedged under your fingernails by forcing them into a soft bar of soap. After the job is completed, the soap will readily come loose, leaving no tell-tale dirt line.

Plan your daily campaign activities so that 4 p. m. will be quitting time. This will enable you to relax with a leisurely bath, polish your nails and rest briefly before dressing.

A deft application of your favorite beauty aids and a spray of cologne or perfume will complete your glamour styling.

Your accomplishments will have to prove your Clean Up activities, for appearance-wise it will seem you spent the day primping. Clean Up-Paint Up-Fix Up and Pretty Up.

Insurance Rates Depend on Fires

You guard your safety and eventually reduce your fire insurance rates when you actively and completely support the Clean-Up, Paint-Up, Fix-Up program.

Insurance rates are dependent on the number of times a certain event occurs. The more fires, the more money paid out and the greater risk undertaken when fire in-

surance is granted; contrastingly, the fewer fires, the lower the rates. To protect your family and reduce your insurance costs, here are a few suggestions.

During the coming campaign, Clean Up these fire hazards: Loose paper, rubbish in the attic and basement; ashes dumped in basement, yard or vacant lot; leaves and needles on roof, or around foundation; gasoline stored in the garage or house, dirty rags any place around the premises, oily

dust rags or mops lying loose in closet or hallway; dusty light fixtures and frayed electrical cords, cracked or dirty chimneys or furnace.

Firemen have a saying, "A Clean House Seldom Burns," and insurance men heartily agree. Safety-wise and financially, the thinking man will clean, paint and repair May 10 to May 16.

It is sometimes necessary to make an enemy or two to clear up the atmosphere.

Umbarger 4-H Club Meets in School Gym

The Umbarger 4-H Club held its monthly meeting recently in the school gym at Umbarger with Genevieve Handing presiding.

Mrs. Mona K. Hildreth, county home demonstration agent, distributed recipes and the standard report forms. Mrs. Hildreth explained how to fill out the record sheets.

Boats Line Shore

Hundreds of boats churned the water of Buffalo Lake last Wednesday morning, and the banks were lined with beached boats of people waiting for the fish to rise.

For a Happier Wife, and Happier Life, Paint the Kitchen This Week

When all is said and done, there is very little room for debate on the subject of just which room is the most important room in the house—or in the apartment. Nine-tenths out of a hundred housewives agree that it's the kitchen. Despite the introduction of stoves, dishwashers, refrigerators and other wonders of this age—all designed to make kitchen chores easier, Mrs. America still spends more time in the kitchen than she does in any other room in the house. And not all of them are too happy about it, especially when they see a full color picture in a magazine of somebody's dream kitchen, so cheerful and gay and bright by comparison.

If you happen to be one of these kitchen-depressives—because your kitchen is drab and colorless—there's a very simple cure: about \$20 worth of paint and enamel and other fixings, and a few hours of spare time. And with the new quick-drying, odorless paints, you won't have to miss the preparation of a single meal!

The first thing to do, of course, is to pick your color scheme. Here your choice is virtually unlimited. Your paint dealer offers the whole spectrum in enamels and paints and stands ready to mix almost any color you desire. The color selection in self-spraying enamels is a bit more limited.

Since you want all surfaces in the kitchen to be easily washable, gloss or semi-gloss enamel is the choice for walls. Areas that are frequently handled, like cabinet doors, refrigerator doors and the like will be even easier to take care of if you use a gloss. For

future—therefore, I urge each one to support the current Clean-Up-Paint-Up-Fix-Up campaign," LaGrone concluded.

the ceiling, a flat finish would be preferable to reduce the glare from reflected light.

Now that you've picked your colors, the next step is to wash away any dirt or grease that might be on the walls or other surfaces. You probably do that anyway a couple of times a year.

If there are cracks in the walls or nail holes in the woodwork and walls, fill them with water putty or spackling compound. When the patches are dry, sand them smooth and spot prime with enamel undercoater that can be tinted with the color of the finish coat. Any areas of very high gloss still left should be roughed up a bit with 00 sandpaper or fine steel wool so that the new enamel will adhere better.

Your job will be easier if you remove hardware and light switch-plates before you start painting. Otherwise, cover those areas with masking tape or vaseline. On the other hand, you may want to paint the hardware, too.

Now you're ready for the actual application of color. For large areas like walls and multiple cabinets, it is more economical to use the familiar brush-on, or roll-on enamels. If the walls and woodwork are being done in the same color and degree of gloss, then do the entire job at one time. But if they are of different color and different gloss, do the walls first; after they have dried, then the woodwork can be painted.

The refrigerators, and the exteriors of dishwashers, washing machines and dryers are seldom made of porcelain in this chemical age, so you'll have no trouble enameling them in the color of your choice. You may want to try one of the self-spraying enamels that comes in an aerosol can. They are easy to use and dry quickly, but be careful to mask hardware

and protect adjoining areas from the spray.

You'll find it easier to keep drawers and cabinet shelves clean if you enamel them, too. And don't forget the insides of cabinet doors. Here's your opportunity to mix your color schemes so that when the doors are open you have a pleasing contrast.

And while you're at it, why not paint broom handles, dustpans, and even your garbage container?

And now a word to the wise.

Let's assume that you've redone your kitchen and it puts those ads in the magazines to shame. Surely you want to keep your new dream kitchen in tip-top shape for a long, long time. You can keep it that way if you'll give a little thought to the great unseen enemy of paint—an enemy better known as moisture.

Moisture is not healthy for paint and it's not healthy for any home interior. And of all the rooms in the house, the kitchen provides the most moisture.

Just what are the moisture producers? Well, here are a few that are found in the average kitchen, based on a family of four:

Dishwashing — a pint a day.
Steam from cooking — 5 pints a day.

Clothes washer — 5 pints a day.
Clothes drying indoors—26 pints

a day.
One human being — a pint every four hours.
And there are other moisture producers. What's the answer? Proper ventilation will do the trick—but lacking that, an exhaust fan is an extremely good idea.

Love your neighbor as you love yourself—not as they love you.

Chamber President Praises Week As Aid in More Profitable Future

"A Clean-Up, Paint-Up, Fix-Up campaign not only makes present living more pleasant but it is a key to a more profitable future," Jerry LaGrone, president of the Chamber of Commerce, said today at the campaign kickoff.

"As our community improves in appearance, health hazards are reduced, and fire losses go down, it will be apparent to all that our citizens are progressive and civic-minded."

"There will be an increase in economic activity — tourists will be attracted to our beauty and cleanliness and will stop in Canyon for lunch or a day or two. And the money they spend during their stay will be another source

of income for the community.

"As you probably know," LaGrone continued, "when industrial plants consider expansion of existing equipment of new sites, a specially trained staff is sent to examine various communities. A clean, attractive city or town rates high because it is apparent that its citizens are interested in better living. And this attracts a fine type of employee who wants to raise his children in a healthy environment."

"Needless to say, we want new enterprise in Canyon. The Clean-Up-Paint-Up-Fix-Up campaign is a specific road toward making our hopes a reality."

"It's good business for every one of us and an investment for the

FOR ALL THE MOTHERS YOU KNOW . . .

All your "other mothers" . . . aunts, grandmothers, and mothers of favorite friends are pretty special too and we have Hallmark Mother's Day Cards just for them. They'll appreciate being remembered . . . and the Hallmark and crown on the back will tell them "you care enough to send the very best."

Improved ORTHO-GRO Liquid Plant Food Develops
Bigger Blooms, Larger Plants, Greener Foliage

Good news for gardeners! Improved ORTHO-GRO Liquid Plant Food now contains a sensational chelating (key-lating) agent that "unlocks" iron and other necessary trace elements in the soil, making them available to the plant. Added to ORTHO-GRO's balanced plant food made of organic fish, nitrogen, phosphoric acid and potash, it provides a fertilizer with tremendous "grow-power" for your entire garden.

Easy to apply. Simply apply Improved ORTHO-GRO Liquid Plant Food with the ORTHO Lawn Spray, garden hose attachment, or sprinkling can.

Pat's Boydston in Beauty Salon?

Patter

The representatives for the Student Faculty Congress of 1959-60 were elected last week at CHS. From the incoming senior class Nedra Fanning, Jackie Breitling and Maria Free were delegated. Elizabeth Coke, Kerry Knorpp and Phillip Waters will represent the junior class. Albert Keller, Sue Huyck, Karen Brewster, Jess Sheets and Lee Ruth Wiggins were elected for the sophomore class. There is one representative elected for every 25 students.

Picnics seem to be the order of the day this time of year. The Science Club picnic was held Thursday afternoon at the College Farm. The band members went to the Marshall's Friday afternoon for their outing. The big picnic—the All-School Picnic, will be held Friday at Palo Duro State Park.

The class favorites for each class are very important people at CHS. Favorites of the senior class were Jimmie Boyd and Dwayne Pettit. Jackie Breitling and Marilyn Winn were chosen from the junior class and sophomores selected Phillip Waters and LaVonne Patterson. Janie Jarrett and Terry Funk were the freshman favorites.

Suzanne Lemons was awarded a piano scholarship to West Texas State College Sunday. Mrs. Houston Bright is her instructor.

Students on the junior high and high school honor rolls were the special guests of the National Honor Society when the group met last Tuesday night.

A panel discussion emphasized the organization, its work and the qualifications for belonging to the club. Panel members were Virginia Crounse, Gail Cox, Jimmy Killingsworth, Mary Beth Brillhart, Robert Blythe, Jimmy Brasher, Kathy Morris, and John Menke, president of the National Honor Society at CHS.

Eddie Boydston was seen entering a beauty salon in Amarillo last Saturday. Was he beautiful for the Junior-Senior Banquet that night?

Jon Jones, minister of the Christian Church at Pampa was the guest speaker at the Junior-Senior Banquet. Decorations for the banquet carried out a Chinese motif. Chinese lanterns, fans, umbrellas, and chop sticks on the tables were used as decor in the cafeteria. A

SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

TO MAKE BETTER use of your irrigation water the supervisors of the Randall-Potter Soil Conservation District suggest you consider the following:

A CONSERVATION irrigation system should: 1. maintain or improve soil productivity, 2. hold erosion damage to a minimum, 3. use to best advantage rainfall as well as irrigation water, 4. dispose of excess water in an orderly manner that prevents erosion.

SOME OF THE things that enter into better use of irrigation water are: types of crops, type of soil, the rate water will enter the soil, amount of water held by the soil, and last but not least slope of the land.

WHERE ROW CROPS are grown row direction slope should not be over three inches fall per hundred feet. Wheat and close growing perennials can be successfully watered on slopes up to one foot fall per hundred feet without danger from erosion. Control of water is more difficult on these steeper slopes and if possible should be leveled before irrigating.

CROP ROTATIONS for irrigated land should include: 1. legumes, grasses, fertilized high residue crops or fertilized aftermath of high residue crops, 2. chopping, shredding and disking plant material into the surface of the soil to form a mulch; 3. and increase water intake and temporary water storage by maintaining a rough soil surface.

WHEN THE ABOVE items are being done the conservation irrigation system will help the most. Other things that will greatly influence the crop are: applying water at the right time for the plant to use, how much water to apply and to lengthen or shorten the length or runs.

IF YOU WOULD like to have more information on the conservation irrigation system the technicians with the Soil Conservation Service will be more than happy to help you with your problems.

nine foot silver Buddha stood in the corner of the all purpose room. Hugo Lowenstern Jr. and his dance band from Amarillo provided the music for the prom.

Okay, Mr. Linotype operator, let's try again. Before you louse things up, THIMK. —PAT HALEY

Palo Duro Holds Scheduled Meets

Palo Duro-Rusk Home Demonstration Club held regularly scheduled meetings during April.

The last one was April 28 in the home of Mrs. Charles Wilkinson. John Brazzil, county agent, spoke on the care of lawns and gardens. He told members that many were buying the wrong commercial fertilizer mix.

Five guests were present. They included Brazzil, Mrs. Bob Wilkinson, Mrs. Darrell Bozarth, Mrs. Herbert Gerdson and Mrs. Curtis Stroup. Members present were Mrs. Bert Northcutt, Mrs. C. V. Conatser, Mrs. Clem Dugan, Mrs. Edd Reynolds, Mrs. Roy Reynolds, Mrs. Earl Reynolds, Mrs. Althea Douglas, Mrs. Doug Marshall, Mrs. Gladys Marshall, Mrs. Henry Miller, Mrs. Grady Freeman, and Mrs. E. W. Glenn.

When the club met with Mrs. Roy Reynolds on April 14, Mrs. Charles Wilkinson gave the program on the care of the eyes. Mrs. Henry Miller and Mrs. Wilkinson gave a demonstration on how to make a lamp shade. They explained that trimming accents improves appearance of lamp shades. Twelve members and one guest, Mrs. Roger Dugan, were present.

Mr. and Mrs. Harvey Artho visited in the home of Mr. and Mrs. George Brockman.

Visiting in the Leo Artho home were Mr. and Mrs. Harvey Artho and family, and Mr. and Mrs. Elroy Artho and family.

Mr. and Mrs. Richard Friemel and family visited in the Frank Gerber home.

Mr. and Mrs. Raymond Batenhorst and family visited in the homes of John Batenhorst and Leonard Batenhorst.

Mr. and Mrs. George Liekhus and family visited in the Joe Wieck home.

Visiting in the Henry Gerber home were Mr. and Mrs. Mike Gerber, Bill Gerber and Mrs. Math Gerber.

Mr. and Mrs. Leonard Batenhorst and family visited the Dennis Brandts.

Exchanging visits were Barbara Liekhus with Dorothy Wieck; Nadine Gerber with Mary Margaret Albracht; Ricky Friemel with Jerry Wayne Gerber; Marilyn Koch with Susan Lindemann and Andy Raef with Jimmy Math Albracht.

Reports Highlight HD Club Meeting

Reports by chairmen highlighted the recent meeting of the Pleasant View Home Demonstration Club in the home of Mrs. Cristler Crain.

Reporting were Mrs. Earl Burtz, recreation; Mrs. R. A. Hodges, education; Mrs. H. M. Stokes, finance; and Mrs. E. L. Cranmer, demonstration.

Peggy and Leta Cranmer demonstrated dairy food uses and various ways milk can be used in summer dishes.

The program was given by Mrs. Cranmer, home care of the eyes; Mrs. Roy Henderson, home care of the throat; and Mrs. R. A. Hodges, care of the ears.

Mrs. John Jennings, presiding officer, called for contributions to the rural membership drive of the American Cancer Society, for which she is chairman.

Ten members and two guests answered the roll call by stating an old fashioned remedy. The club prayer was repeated in unison. Pie and coffee were served.

Mrs. A. R. Mickey was a Monday visitor of the Arvin Triplets.

Mrs. Edith Howard visited the Arvin Triplets Thursday.

Mrs. Ruthart Hosts Club at Breakfast

Mrs. Crawford Ruthart entertained the Canyon Home Demonstration Club with a "come as you are" breakfast Monday morning.

Fines were assessed for changes in clothing. Mrs. Lou Williams and Mrs. Glenn Haynes led games.

Coffee and doughnuts were served to Mrs. E. L. Hardaway, Mrs. J. C. McClendon, Mrs. Bill Wilson, Mrs. Jack Barnard, Mrs. Bill Money, Mrs. Glenn Haynes, Mrs. Lawrence Hunnicutt, Mrs. Eddie Howard, Mrs. D. R. Weaver, Mrs. Karl Williams, Mrs. Luke Miller, Mrs. J. A. Edwards, Mrs. Dean Cook and Mrs. D. S. Owens.

Play Yard High
On Fix-Up List

After you have given the yard a thorough cleaning, assign each child a small garden plot to cultivate and plant easily grown flowers and vegetables. This not only gives "Plant Up" a boost but provides pleasure and responsibility training for the children.

A croquet set or badminton court are inexpensive but can provide entertainment with little work in setting up. A basket ball net or an improvised bushel basket placed on the garage will give practice and fun in this team sport. Also, a shuffleboard court can be painted on a concrete driveway and will be fun for the youngsters and the adult family members, too.

A grape arbor or corner of the yard can be adapted to a play house for the younger members of the family. In addition to their toys, two or three chairs and perhaps an old table discarded from attic clean-up can be gaily painted to provide props for junior house-keeping.

Lawn bowling, horseshoes, and in fact, many other activities that meet your family's interests and ground facilities will make your yard an appealing place to play and the streets and alleys far less alluring.

During Clean-Up, Paint-Up, Fix-Up time, heed the campaign's safety message and make your yard a play haven.

Litter is Blot and Fire Hazard

Litter has been variously described as a blot on the beautiful face of America, a drain on the taxpayer, a threat to health and highway safety, and a national disgrace. These are costly by-products of carelessness. And there is still another, according to Keep America Beautiful, Inc. Litter is also a fire hazard.

Quoting James C. Hullett, former president of the National Board of Fire Underwriters, KAB, Inc., the national organization for the prevention of litter, points out that litter and rubbish account for a substantial part of the nation's over-all yearly billion dollar fire loss. Trash accumulation in cellars, attics, alleyways and vacant lots is a fire hazard which can result in costly damage to property and even loss of life. Remains and wrappers from a picnic lunch thoughtlessly tossed on highways, or in parks, forest and recreation areas may involuntarily provide ammunition for a devastating forest fire.

While the problem of controlling trash-caused fires is tremendous (rubbish and litter were responsible for more than twice as many fires in the past 10 years as in the previous decade) KAB says that encouraging strides have been made and can, in many instances, be attributed to a concentrated educational program of litter prevention.

Until just a few years ago hardly anyone had ever heard of litter-bags. Today a large percentage of the American public considers the portable trash container an essential piece of traveling equipment and wouldn't dream of taking off in the family car without one.

This would indicate that concern over the trash-tossing propensities of the motoring public is getting results. Many Americans are accepting an individual responsibility for maintaining the clean, attractive appearance of their highways and recreation areas, and regard the litterbag as a valuable aid to good outdoor housekeeping. Well and good. But unless everyone cooperates, highway clean-up costs will continue to be exorbitant — \$50,000,000 a year for primary highways alone — litter will continue to be a fire and safety hazard, and litterbugs will continue treating the countryside as a trash heap.

Between 750 and 1,000 people are killed and nearly 100,000 seriously injured each year as a result of cars striking or swerving to avoid objects thrown on the highways, and last year rubbish caused 11,500 fires in Chicago alone.

What is a litterbag? Well, you might say it's a kind of traveling wastebasket whose purpose is to save the nation's highways and

byways — to say nothing of your car upholstery — from becoming more than a huge garbage can.

Like everyone else there must have been times when you've wondered what to do with sticky wrappers, used tissues, the remains of a picnic lunch, or the many other articles which accumulate during the course of normal automotive travel. After a slight but quickly subdued twinge of conscience, perhaps you've surreptitiously tossed the whole mess out the window.

But why abuse the convenience modern packaging brings you? From now on resolve to use a lit-

terbag instead. There are many varieties, from simple home-made devices to patented commercial products, and although some leaders in the anti-litter movement encourage regular use of a standard container, any kind of a sturdy bag (including a plain grocery or shopping bag, box or basket) will do if nothing else is available.

The litter problem in America is a direct result of the daily thoughtlessness of millions of individuals. It will be eliminated only when these careless habits are changed, so why not resolve

today to always carry a litterbag in your car? Spread the word around to your friends and neighbors — and let's get everyone in the act!

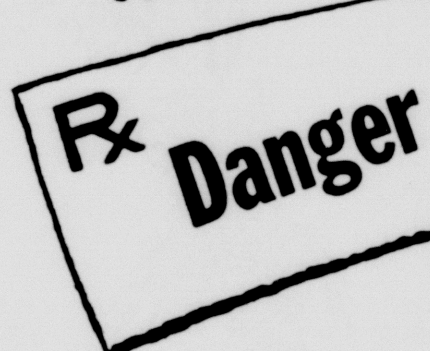

Mr. and Mrs. Grady Pipkin of Eastland visited his mother, Mrs. Mittie Workman, and his aunt, Mrs. Eunice Wilson, in Canyon Thursday and Friday.

Mr. and Mrs. J. W. Leach and daughter, Leta, of Lockney visited Mrs. Leach's mother, Mrs. Mittie Workman.

Engaged

Mr. and Mrs. Herschel Coffee announce the engagement of their daughter, Florence Marie, to Barry John Gould of Sydney, Australia, son of Mr. and Mrs. A. J. Gould of Sydney. An August wedding is planned.

Broken promises are the trademark of a weak character.

Color Makes a Difference in Living

All of us have our own ideas for the makings of the happiest world—health, peace, prosperity. But have you ever considered what would constitute the duller world? Well, imagine living in a world without color — picture how your surroundings would look in black and white. No beautiful greens and yellows, or violets and blues or brilliant reds — just black and white for everything. What could possibly make life duller?

Color is the spice of existence. It adds more pleasure to daily living than any other single factor. Today people are more color conscious than ever before. Cars, telephones, appliances — even paper napkins — are in bright colors because of popular demand.

One of the foremost uses of color is in the home. A home's decor reflects the personal taste of its owner, so it's natural that all of us want our homes to look their very best. And since Spring is the time most folks begin sprucing up, we thought color usage in the home would be a timely topic. Those of you about to repaint a room or the entire house may find the suggestions interesting and

helpful.

The right choice of colors can do wonders for your home. You know that certain colors flatter you more than others. Well, the same thing applies to your house. There's a technique of using paint colors that will make your home and its furnishings appear to the best possible advantage. It's known as paint styling.

Paint styling enables you to create various illusions of size and shape by using certain colors. This is possible because colors can deceive the eye. Light colors make things seem larger, while darker shades make things seem smaller.

Employing this knowledge of color usage, you can make a minimum sized room look larger if you paint it in a light color. And a large, barn-like room will seem cozier painted a dark shade.

Then there's the matter of the warm colors — the reds, oranges, yellows and yellow-greens. These colors seem to advance toward you and convey the feeling of warmth. Blues, violets, blue-greens and blue-grays are the cool colors, which seem to retreat from you and make things seem cooler.

Perhaps your rooms present no size problem, but you're not quite satisfied with the shape of one or more of them. Can paint styling improve a room's shape? The answer is a definite yes.

Let's suppose your living room is long and narrow. You can make it appear wider by painting each of the end walls a darker color

than the remaining walls and ceiling. On the other hand, a room that's square and rather uninteresting in shape can be improved by featuring one wall in a different color from the other three. This provides a focal point of interest. If you have a fireplace in the room, the decorative color interest is best used on the fireplace wall.

Do you feel the ceilings in your home are too high? Color can remedy this situation for you, too. Ceilings will appear much lower when you paint them a darker shade than the side walls.

When you're choosing a room's color scheme, it's wise to consider the amount of light the room receives. Lighter tints reflect more light, while darker shades absorb it. Very dark colors are best used only in well lighted rooms.

Here's more you can achieve us-

Wayside News

D. L. Hunt filled his appointments Sunday.

Those from Wayside attending the annual NFLA meeting in Amarillo Wednesday were Mr. and Mrs. Henry Hamblen, E. J. Mahler, Rolland Adams and Mr. and Mrs. W. R. Franklin. A catfish dinner was served. "Cotton John" Smith showed and narrated "A Tenderfoot In Europe."

Alfred Hamblen suffered a broken hip while working on his pickup Saturday.

M. C. Sluder was a dinner guest in the Willie Modisette home Sunday.

Mr. and Mrs. Donnie Martin and Derrel spent last weekend with Mrs. Martin's parents near Quitaque.

John McGehee has a couple, Mr. and Mrs. John Barnes, to live with him at his home.

Mr. and Mrs. Roy Stockett of near Tulia and Mr. and Mrs. W. R. Stockett visited Sunday afternoon in the Nola Mae Stockett home near Claude.

Mr. and Mrs. Buddie Green of Happy have moved to the W. R. Stockett farm, where they are employed.

Mrs. M. E. Counterman and son, Bill, of Happy, and Mrs. W. R. Franklin were visitors in the John McGehee home Friday evening.

Our community was blessed with a good shower of rain Friday afternoon.

Mr. and Mrs. John Barnes were Canyon callers Wednesday.

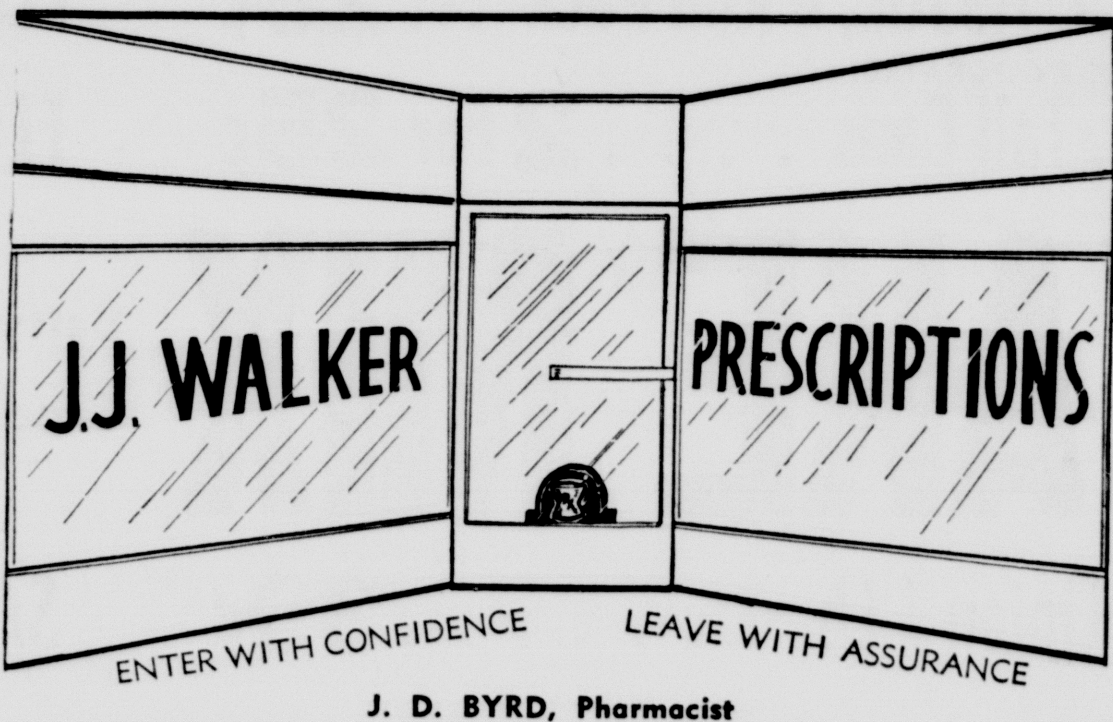

Our community was saddened by the death of Mrs. Dallas Culwell. She was the former Lois Moore and with her family lived in the Wayside community a number of years before her marriage to Dallas Culwell.

CLEAN UP PAINT UP FIX UP

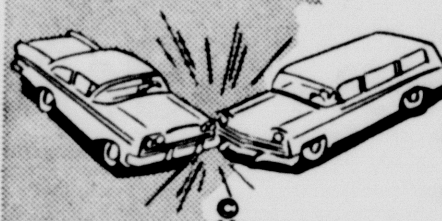

... And don't forget the medicine chest. Make sure poisons are out of reach of my inquisitive fingers. Don't guess the contents of unlabeled bottles. Throw them away! After the medicine chest is cleaned up, check that we have the basic needs for first aid treatment—thermometer, ammonia spirits, cotton, sterile bandages, antiseptic, burn ointment, rubbing alcohol, tweezers, tape.

P. S. Daddy, don't forget that Sunday is Mother's Day. She likes King's Mother's Day Candy! Chocolates, Tex*Anas, Rough Riders, Rose Box, French Cremes, Pecan Divinity, and Choice New Summertime Candy.
